AUROYALI

EARTH ARCHITECTURE & NATURAL CONSTRUCTION

About us

AuroYali is a unit under Auroville Universal Town. We work to manifest a new consciousness in the field of building construction.

Our aim is to develop ourselves into a model organization in providing multi-disciplinary services and products necessary for construction. These services range from block making, architectural design, metal fabrication, carpentry works and painting.

Executive Mohan J. an Aurovillian, a believer of perfection and quality, started this unit with the aim to produce construction products and projects with a commitment to high standards of perfection befitting the aesthetic and spiritual ideas of Auroville.
